

## Your new Security Officer.

P-4532i MFP · P-4539i MFP  
P-5539i MFP · P-6039i MFP

The A4 multifunctional systems are now free of data security limitations. In addition to a print resolution of 1,200 x 1,200 dpi and a high output speed of up to 60 A4 pages per minute, the P-4532i MFP, P-4539i MFP, P-5539i MFP and P-6039i MFP also offer comprehensive data security functions that are otherwise only seen in A3 systems. And their intuitive colour touch screens are designed for groundbreakingly easy and convenient operation. All this means you now get security and convenient operation rolled into one compact format.

### What you can expect:

**PERFECTLY SECURED:** The integrated Data Security Kit featured in these MFPs guarantees the security of your data in accordance with the current applicable ISO requirements. In addition, the USB card reader\*, which enables you to identify yourself in the system using a chipcard or transponder without contact, also offers highly effective security. But that's not all: the Secure Boot procedure, when starting the system, and the Run-Time Integrity Check, when the system is running, ensure that authorised firmware is used and thereby protect your data, both now and in the future.

**EXTREMELY EFFICIENT:** With the MultiCrop Scan HyPAS app, the laborious task of scanning in receipts one by one can now be done quickly and easily. In just one step, multiple receipts can be digitally cut, straightened and scanned in one operation and stored separately as a file. Dual-scan feed is available for professional and extensive digitalisation. In the P-6039i MFPs, this feature is additionally equipped with an ultrasonic sensor that stops the scanning process in situations such as when two or more originals are fed in at once. This way, none of your valuable data gets lost.

**100% INTUITIVE:** The adjustable, 7 inch touch panel guarantees the unparalleled user-friendliness of these A4 systems. The standard HyPAS™ interface for integrating optional customer-specific software solutions and applications as well as the optional Scan Extension Kit for automatically creating text-searchable PDF files are two more features that help bring innovation and efficiency to your work.

**HIGHLY PRODUCTIVE:** Thanks to a printing speed of 45, 55 or 60 A4 pages per minute and a huge paper capacity of up to 2,600 sheets, getting big jobs done quickly and avoiding unnecessary waiting times is a breeze. Moreover, mobile printing and scanning via the free Mobile Print app and printing via Apple AirPrint\* or Wi-Fi\* will quickly make these versatile all-in-one systems irreplaceable 'colleagues' in your office.
